

Policy DFI-1: SETTING TUITION FOR DISTRICT PROGRAMS

Status: ADOPTED

Original Adopted Date: 10/13/2020 | **Last Revised Date:** 12/10/2024 | **Last Reviewed Date:** 12/10/2024

(District Allows Tuition-Paying Nonresident Students to Enroll and Attend)

The DistrictCommonName School Board recognizes that there are situations where nonresident students and residents who are not otherwise entitled to free education may be allowed by law to attend the DistrictCommonName or district programs on a tuition basis. In these situations, the board will set tuition in an amount that, minimally, recoups the costs of the program and meets any applicable legal requirements.

The superintendent will make recommendations to the board annually to set tuition rates for the following year. The board will set all applicable tuition rates no later than February 1.

Per-Pupil Cost

When used in this policy, "per-pupil cost" refers to the cost of maintaining the district's grade-level grouping in the school the student will attend divided by the average daily pupil attendance. In no case will the per-pupil cost exceed the amounts spent for teachers' wages, incidental purposes, debt service, maintenance, and replacements. The term "debt service" means expenditures for the retirement of bonded indebtedness and expenditures for interest on bonded indebtedness. The per-pupil cost may be offset by any state or federal funding received for the attendance of the nonresident student.

Collecting Tuition

The board expects the superintendent or designee to take action to minimize delinquent or uncollected tuition payments including, but not limited to, securing binding contracts with the persons responsible for paying tuition and requiring prepayment of tuition from individuals when appropriate. If a party is delinquent in payment, the board authorizes the superintendent or designee to contact the district's attorney and take all available legal action to recoup tuition payments owed to the district. Unless otherwise prohibited by law, the district may exclude students from the district's education programs after the responsible party is notified of the delinquency and given a reasonable amount of time to pay the district.

Tuition for the Education of Nonresident Students

The district allows nonresident students to attend the district on a tuition basis even in situations where enrollment is not required by law. The tuition will be set at the per-pupil cost of maintaining the district's grade-level grouping in the school the student will attend.

Early Childhood Tuition (§ 161.213, RSMo.)

The tuition for any district-operated early childhood programs that charge tuition will be set at the per-pupil cost of maintaining the early childhood program.

Summer School Tuition (§ 167.227, RSMo.)

The district has the option of charging tuition for nonresidents to attend its summer school program. If the district selects this option, tuition will be set at the per-pupil cost of operating the summer school program.

Career and Technical Education Tuition (§ 178.510, RSMo.)

If the district has a career and technical education program open to neighboring districts, the district may contract to provide those services to students in other districts and will charge those districts tuition set at the per-pupil cost of the program.

Disputes between the DistrictCommonName and the student's resident district may be submitted to the State Board of Education for resolution.

Tuition for Children Placed in the District (§ 167.126, RSMo.)

For nonresident students placed by the Department of Mental Health, the Department of Social Services (DSS), or a court order in facilities or programs located within the district or who temporarily reside (for more than three days) in a children's hospital or psychiatric residential treatment facility located in the district, the DistrictCommonName will charge the student's resident district tuition equal to the average sum produced per student by the local tax efforts of the student's resident district. A special school district will pay the average sum produced per child by the local tax efforts of the domiciliary districts. If the resident district fails to pay the appropriate amount to this district within 90 days of billing, this district will notify the Department of Elementary and Secondary Education (DESE) so that the appropriate amounts may be withheld from the resident district's state aid and paid to the DistrictCommonName. In addition, the district may receive payments from DESE in lieu of receiving the local tax effort from the domiciliary district in some situations.

The district will seek additional payments from DESE for students placed in programs or facilities operated by the Department of Mental Health, DSS, or a court or placed by DSS or a court into a publicly contracted residential site in Missouri when the per-pupil costs of the education services provided to the student exceed the amounts received from the student's resident district.

Tuition Charged to K–6 or K–8 School Districts (§ 167.131, RSMo.)

For students who enroll in the DistrictCommonName because they reside in a school district located in the same county as the DistrictCommonName or an adjoining county that does not provide education through grade 12, the district will set tuition at the per-pupil cost of maintaining the district's grade-level grouping in the school the student will attend, which will be charged to the student's resident school district as required by law. Disputes between this district and the student's resident district may be submitted to the State Board of Education for resolution.

Tuition Charged for Two-Year College Courses (§§ 178.370 - .400, RSMo.)

If the district establishes a program for two-year college courses as allowed by law, the district may charge tuition to enroll in such courses to all nonresident students as well as resident students who are ineligible for free education. The tuition will be set at the per capita costs of the courses. Tuition may be paid by individual students or the school district of residence.

Tuition for Night School (§ 178.290, RSMo.)

If the district establishes a night school as allowed by law, the district will charge tuition to all nonresident students and any resident students who are ineligible for free education. The tuition will be set at a rate that recoups the costs associated with the program.

Tuition for Students Assigned with a Hardship Transfer (§§ 167.121, .125, RSMo.)

If the commissioner of education assigns a nonresident student to the district due to a transportation hardship under § 167.121, RSMo., the district will enroll the student and charge the student's resident district the pro rata cost of instruction for the student. If the commissioner of education assigns a student living in St. Elizabeth, St. Albans, or Maries County to the district under § 167.125, RSMo., the school district of residence will pay the DistrictCommonName the pro rata cost of instruction. However, if the DistrictCommonName's tuition is greater than the tuition of the student's school district of residence, the student's parent/guardian will pay the difference in tuition.

Tuition Charged for Transfers from Unaccredited School Districts (§§ 167.132, .895, RSMo.)

In situations where DESE assigns students residing in an unaccredited district to be educated in the DistrictCommonName, the board will set tuition in accordance with law that will be either the state adequacy target plus the average sum produced per child by the sending district's local tax effort or a lesser amount as determined by the board.

If costs associated with the provision of special education and related services to a student with a disability exceed the tuition amount set by the board, the unaccredited district will pay the excess cost to the DistrictCommonName. For districts served by a special school district, the unaccredited district will contract directly with the special school district for special education and related services.
